

OneNote Share a Page

Share Pane

The screenshot displays the OneNote interface with the 'Share' pane open on the right. The main window shows a page titled 'Intro to Cells' under the 'Cell Structure' tab. The page content includes a title, a date and time stamp, and a section titled 'The Cell Theory of Biology' with a bulleted list of points. The 'Share' pane on the right has a title bar with a close button and a 'Share' button. Below the title bar, there is a dropdown menu showing 'This page: Intro to Cells' and a text input field labeled 'Type email addresses'. At the bottom of the pane, there are two buttons: 'Get a link' and 'Send a copy'.

The Cell Theory of Biology

- All organisms are composed of cells
- The cell is the structural unit of life - units smaller than cells are not alive
- Cells arise by division of preexisting cells - spontaneous generation does not exist
- Cells can be cultured to produce more cells
 - *in vitro* = outside organism or cell
 - *in vivo* = inside organism or cell

Shared Notes View

RECEIVING A SHARED PAGE BEHAVIOR

In the Shared Notes view, similar to an active note in Recent Notes view, Line 4 is replaced. The treatment will include the Person icon + the name of the person who shared the page. Pages will be sorted by most recent at top.

The screenshot shows the OneNote interface with a purple ribbon at the top containing 'Home', 'Insert', and 'Draw' tabs. Below the ribbon is a toolbar with icons for Bold (B), Italic (I), Underline (U), and a dropdown arrow. The main content area displays a list of shared notes. Annotations with red lines point to specific elements:

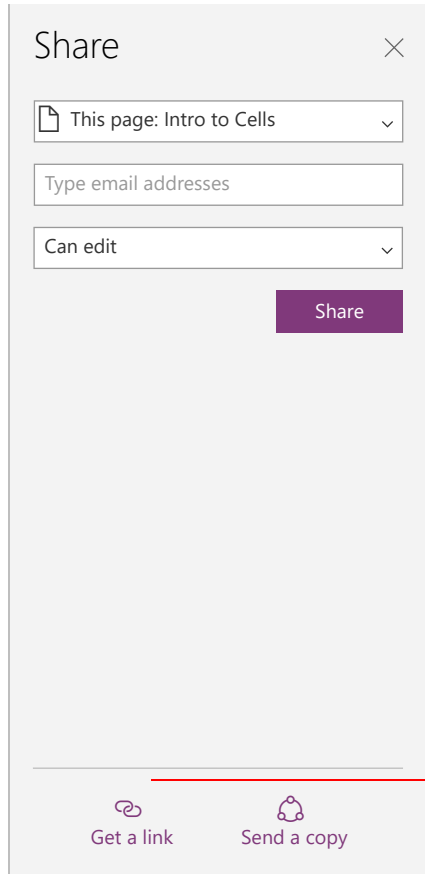

- 18 px**: Points to the 'Shared Notes' header.
- Medium Regular #333333**: Points to the text 'Shared Notes'.
- 18 px**: Points to the vertical line separating the header from the list items.
- 48 px**: Points to the right margin of the list items.
- Icon: Person #80397b 11x11 px**: Points to the person icon next to the author name 'Dylan Hathaway'.
- Small Regular #80397b Overflow: ...**: Points to the text 'Top MINI Mods'.

The list items shown are:

- Intro to Cells**
The Cell Theory of Biology
All organisms are
